

## ERRATUM

Ashley JV, Shafer AD: Teratoma of the tongue in a newborn. *Cleve Clin Q* **50**:34-37, Spring 1983.

The names of two authors were inadvertently omitted:

*Prem Singla, M.D.*, Department of Pathology, The Children's Medical Center, Dayton, OH.

*Alvin Rodin, M.D.*, Department of Pathology, Wright State University School of Medicine, Dayton, OH.

The captions to Figures 3 and 4 should read as follows:

**Fig. 3.** Immature neuroectodermal tissue containing structures resembling rosettes. These have a cellular mantle and inner fibrillary material. A central lumen is seen in one (hamatoxylin and eosin  $\times 250$ ).

**Fig. 4.** One of several focal areas with a papillary pattern resembling choroid plexus. Each papilla has a central fibrovascular core and a lining of cuboidal cells (H & E  $\times 250$ ).
