HIGHLIGHTS FROM MEDICAL GRAND ROUNDS

WILLIAM S. WILKE, MD, EDITOR

Outcome improving for lung transplant patients 673

PATRICK M. MCCARTHY, MD

Survival rates following lung transplantation may approach 90% by the end of the century, thanks to improved graft preservation and immunosuppressive therapy.

Gallstone therapy: return to the gold standard 674

GREGORY ZUCCARO, JR., MD

Nonsurgical alternatives to cholecystectomy are costly and applicable to limited subsets of patients.

CURRENT DRUG THERAPY

DONALD G. VIDT, MD AND ALAN BAKST, PHARM D, EDITORS

Isradipine in the treatment of hypertension: a clinical profile 677

DONALD G. VIDT, MD

A new calcium channel blocker is safe, well tolerated, and has long-term antihypertensive efficacy regardless of age or race, with no adverse effects on lipids, carbohydrate tolerance, or renal function.

CONTRIBUTIONS**Management of inflammatory bowel disease: 30 years of observation 685**

WILLIAM M. MICHENER, MD

MAUREEN CAULFIELD, MD

ROBERT WYLLIE, MD

AND RICHARD G. FARMER, MD

Data based on three decades of direct patient care indicate that patients with inflammatory bowel disease have specific treatment options and can count on long, productive lives.

Hepatic artery infusion chemotherapy for colorectal liver metastases 692

RUDOLPH B. RUSTIN, MD

DAVID P. VOGT, MD

RONALD M. BUKOWSKI, MD

AND KIRK V. SHEPARD, MD

The Infusaid pump was found to be a reliable system of drug delivery that may result in regression of liver metastases in some patients.

Psychological factors in men with genital pain 697

LESLIE R. SCHOVER, PHD

When organic causes of male genital pain have been ruled out, stress, inadequate social support, and psychological factors should be considered.

REVIEWS

- Implications of childhood hypercholesterolemia** 715

RICHARD E. GARCIA, MD
AND DOUGLAS S. MOODIE, MD

Hypercholesterolemia in childhood is a powerful predictor of adult hypercholesterolemia, and is a compelling reason to screen children after age 3.

- Oncogenes and cancer: clinical applications** 721

ANDREW J. FISHLEDER, MD

The identification of genes that play a part in tumor development has significant implications for the diagnosis and treatment of certain neoplasms.

EDITORIAL

- The Canadian health care system: Is our present your future?** 727

HUGH E. SCULLY, MD

Despite their common objective—adequate health care for all—differences in history and perspective make it unlikely that Canada and the United States will ever approach health care delivery in the same way.
