

# CLEVELAND CLINIC JOURNAL OF MEDICINE

VOLUME 58 · NUMBER 3 · MAY · JUNE 1991

## HIGHLIGHTS FROM MEDICAL GRAND ROUNDS

WILLIAM S. WILKE, MD, EDITOR

## Reducing stroke risk in atrial fibrillation patients 203

DAVID SHERMAN, MD

Warfarin or aspirin appears to prevent stroke in patients over age 60 with chronic or intermittent atrial fibrillation.

## Managing congenital heart defects in adults 204

RICHARD STERBA, MD

Congenital heart defects may go undiagnosed or untreated in childhood and become adult problems.

## EDITORIALS

## Who should treat headache? 213

GLEN D. SOLOMON, MD

## Carney's complex remains a puzzle 214

LESLIE R. SHEELER, MD

## Eosinophilia-myalgia syndrome: CDC update 215

STEVEN B. AUERBACH, MD, MPH

AND HENRY FALK, MD, MPH

## Catheter ablation: a 'charge' into the future 218

RICHARD G. TROHMAN, MD

AND ANITA ZEILER ARNOLD, DO

## CONTRIBUTION

## Transcatheter electrical AV junction ablation: predictors of success 223

TONY W. SIMMONS, MD

HASSAN M. K. NAGI, MD

BRUCE L. WILKOFF, MD

VICTOR A. MORANT, MD

RICHARD STERBA, MD

LON W. CASTLE, MD

AND JAMES D. MALONEY, MD

Factors influencing transcatheter ablation outcome were analyzed in 29 patients unresponsive to drug therapy.

## CASE REPORTS

## Factitious anisocoria and orthostatic hypotension 229

OSITADIMMA A. ONYEKWERE, MD

HAROLD MORRIS, MD

RON VICTOR, MD

AND FETNAT M. FOUAD-TERAZI, MD

Recurrent syncope and unequal pupil diameters in a 30-year-old woman employed by a veterinarian.

## Lambda light chain myeloma with pleural involvement 235

SAMUEL L. ABBATE, MD

MICHAEL R. JAFF, DO

ANDREW J. FISHLEDER, MD

AND DAVID P. MEEKER, MD

A rare complication of multiple myeloma is described.

## **Prolonged survival with isolated levocardia and situs inversus 243**

VANI VIJAYAKUMAR, MD  
AND THOMAS BRANDT, MD

Multiple malignancies were associated with this anomaly in a 73-year-old woman.

## **Evaluation and management of Carney's complex: an illustrative case 248**

THOMAS M. WALLACE, MD  
HOWARD S. LEVIN, MD  
NORMAN B. RATLIFF, MD  
AND ROBERT E. HOBBS, MD

Early recognition may prevent or delay some of the complications.

### REVIEWS

## **Strategies for migraine management 257**

SEYMOUR DIAMOND, MD

Optimal management of the migraine patient is a matter of time, persistence, and, most important, frequent follow-up.

## **Eosinophilia-myalgia syndrome 267**

JAMES W. KAZURA, MD

What features distinguish EMS from idiopathic hyper-eosinophilic syndrome and helminthic infections such as trichinosis?

### RADIOLOGY PATHOLOGY GRAND ROUNDS

MOULAY A. MEZIANE, MD, EDITOR

## **Bilateral renal masses in a 61-year-old man 271**

RICHARD G. BARR, MD, PhD  
CATHRYN POWERS, MD  
AND KATHLEEN GLEASON BEAVIS, MD

### CURRENT DRUG THERAPY

DONALD G. VIDT, MD  
AND ALAN BAKST, PharmD, EDITORS

## **Tailoring antihypertensive therapy in 1991 277**

DONALD G. VIDT, MD

The trend is toward individualized treatment and away from rigid stepped care.

### BOOK REVIEWS

HERBERT P. WIEDEMANN, MD, EDITOR

## **Retrovirus Biology and Human Disease 205**

MAX R. PROFFITT, PhD

## **Heart-lung Interactions in Health and Disease 205**

DAVID A. HOLDEN, MD

## **Essential Pathology 206**

NORMAN B. RATLIFF, MD

### DEPARTMENTS

## **CME Calendar 201**

## **Information for Authors 262**

## **Correction 284**
