

CLEVELAND CLINIC JOURNAL OF MEDICINE

EDITORIAL

Health quality data: Are flawed data better than none? 75

Comments on the critique of quality assessment by Vogel and Topol in this issue. A Cleveland project highlights the promise and peril of quality measurements.

J.D. CLOUGH

INTERPRETING KEY TRIALS

Therapy for acute ischemic stroke: the door opens. Interpreting the NINDS rt-PA stroke study 77

Finally, a successful trial of treatment for acute stroke. Now, a major effort is needed to reduce time from onset to treatment.

C.A. SILA AND A.J. FURLAN

Cholesterol lowering: perspectives on the 4S and West of Scotland studies 80

Recent studies have resolved lingering doubts about cholesterol-lowering therapy, but questions on lipid management remain.

J.W. OLIN

MEDICAL GRAND ROUNDS

■ WILLIAM S. WILKE, EDITOR

Colon polyps: diagnosis, treatment, surveillance 84

Current screening methods, though imperfect, can reduce colon cancer mortality.

R.U. VAN STOLK

Is fibromyalgia a useful diagnostic label? 85

Fibromyalgia is a harmful diagnosis that magnifies everyday complaints into a full-blown syndrome.

N.M. HADLER

EDITORIAL

Fibromyalgia: more than a label 87

Fibromyalgia is a useful diagnosis that can reduce wasteful testing and treatment.

W.S. WILKE

CLINICAL DECISION-MAKING

■ GARY S. HOFFMAN, EDITOR

Acute myelogenous leukemia in first remission 91

Outcomes can be predicted by, and therapy tailored to, specific prognostic factors, such as age and karyotype.

M.E. KALAYCIOGLU

Continued on page 74

CLINICAL REVIEWS

Outpatient management of systemic lupus erythematosus 94

Common problems in the treatment of lupus and suggested management strategies.

G.N. SIMS, JR. AND H.R. SMITH

Managing lupus nephritis: algorithms for conservative use of renal biopsy 106

Despite the widespread use of renal biopsy, lupus nephritis can usually be managed on the basis of clinical presentation alone.

R.H. SALACH AND J.M. CASH

Cardiac rehabilitation: not just exercise anymore 116

The treatment of sicker patients and shorter hospital stays are forcing a rethinking of approaches to cardiac rehabilitation.

EJ. PASHKOW

CARDIOLOGY DIALOGUES

■ JAMES THOMAS, EDITOR

Practice guidelines and physician scorecards: grading the graders 124

A discussion of the pros and cons of different tools to assess the quality of medical care.

R.A. VOGEL AND EJ. TOPOL

INTERNAL MEDICINE BOARD REVIEW

■ DAVID L. LONGWORTH AND JAMES K. STOLLER, EDITORS

A 36-year-old woman with progressive shortness of breath and chylous pleural effusion 129

A self-test of clinical recognition.

R.A. DWEIK AND A.C. ARROLIGA

Current guidelines state that participants in CME activities should be made aware of any affiliation or financial interest that may affect an author's article. Each author has been requested to complete a conflict of interest statement. The names of authors declaring a potential conflict of interest have been indicated with an asterisk.

The statements and opinions expressed in the *Cleveland Clinic Journal of Medicine* are those of the authors and not necessarily of the Cleveland Clinic Foundation or its Board of Trustees.

The *Cleveland Clinic Journal of Medicine* (ISSN 0891-1150) is published six times yearly by the Cleveland Clinic Foundation. Subscription rates: U.S. and possessions: personal \$35; institutional \$45; single copy/back issue \$10. Foreign: \$45; single copy/back issue \$12. Institutional (multiple-reader rate) applies to libraries, schools, hospitals, and federal, commercial, and private institutions and organizations. Individual subscriptions must be in the names of, billed to, and paid by individuals.
