## TABLE OF CONTENTS

## MEDICAL GRAND ROUNDS

### New options for diagnosing and treating acromegaly 343

Insulin-like growth factor 1 (IGF-1) is a more sensitive clinical marker of acromegaly than growth hormone. Two new somatostatin analogs are available for treatment. With an illustration explaining the growth hormone cascade.

A.L. BARKAN

## HEART FAILURE UPDATE

### NEW SERIES Heart failure update 350

Heart failure is going to be every physician's problem, regardless of specialty.

J.B. YOUNG

### The heart failure pandemic: Changing patterns, costs, and treatment strategies 351

As the definition of heart failure changes, new treatment strategies are needed to control costs and reduce suffering.

R.C. STARLING

## CANCER DIAGNOSIS AND MANAGEMENT

### Newer management options in patients with spinal metastasis 359

For some patients with spinal metastasis, new surgical options can prolong survival and immediately improve function. With an illustration that explains the new treatment options.

R.F. McLAIN AND G.R. BELL

## REVIEW

### Pelvic inflammatory disease: The importance of aggressive treatment in adolescents 369

PID and its major sequelae of tubal scarring, chronic pelvic pain, and infertility are preventable if physicians diagnose it early and treat it aggressively. With an illustration explaining why adolescents are at greater risk for PID.

E.S. ROME

## INTERNAL MEDICINE BOARD REVIEW

## A 40-year-old woman with a "windmill" pattern of sensory disturbance 377

What is the likely cause of this patient's symptoms?  
A self-quiz on a clinical case.

M. RENSEL AND R P. KINKEL

## EDITORIAL

## The cruel "cancer cure" hype 386

The unrealistic hopes raised by recent news reports of an impending cure for cancer were cruel to patients.

M. MARKMAN

## DEPARTMENTS

## Dear Colleague 338

## Change of Address 368

## CME Calendar 376

## Letter to the Editor 388

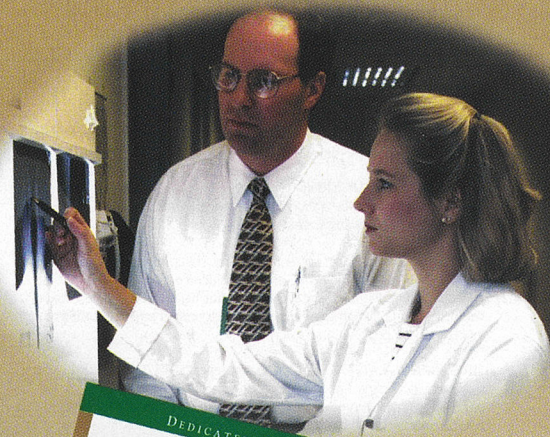

## CME Credit Test 391

Current guidelines state that participants in CME activities should be made aware of any affiliation or financial interest that may affect an author's article. Each author has been requested to complete a conflict of interest statement. The names of any authors declaring a potential conflict of interest are indicated with an asterisk.

- The *Cleveland Clinic Journal of Medicine* is peer reviewed and indexed in *Index Medicus*.

# UPCOMING FEATURES

- **Beta-blockers and heart failure**  
*Once beta-blockers were contraindicated for heart failure, but this is changing.*
- **Prescribing for elders**  
*Individualizing drug therapy for elderly patients is the key to success.*
- **Sickle cell disease: Issues for internists**  
*New developments in understanding the natural history and complications of sickle cell disease.*
- **Colorectal cancer screening**  
*Making sense of the different guidelines for risk stratification and screening.*
