FROM THE EDITOR

What's your opinion of CCJM's Patient Information page? 695

Is our Patient Information page useful "as is," or are changes in order? Let us know.

J.C. CLOUGH

1-MINUTE CONSULT

Can calcium and vitamin D supplementation adequately treat most patients with osteoporosis? 696

Although calcium and vitamin D play an important role in treating osteoporosis, they are not adequate by themselves.

C. DEAL

MEDICAL GRAND ROUNDS

Osteoporosis: Which current treatments reduce fracture risk? 701

With effective agents available, physicians should make osteoporosis treatment a priority, especially for patients at high risk.

D.T. BARAN

REVIEW

Tricyclic antidepressant poisoning 704

Tricyclic overdose—intentional or otherwise—is still common and can be lethal. Keep it in mind, and be aware of the pitfalls in its diagnosis.

J. GLAUSER

CANCER DIAGNOSIS AND MANAGEMENT

The evolving role of hormone therapy in advanced prostate cancer 720

If the patient's prostate-specific antigen level resumes rising after surgery or radiotherapy for prostate cancer, the next step is hormonal therapy.

R. DREICER

REVIEW

Diastolic dysfunction and heart failure: Causes and treatment options 727

Although diastolic dysfunction is the underlying problem in at least one third of cases of heart failure, it is still poorly understood.

M.J. GARCIA

REVIEW

How to help your patients lose weight: Current therapy for obesity 739

Although weight-loss drugs won't produce miracles, attempts at weight loss are worth the effort.

D. WEISS

REVIEW

Diagnosis and treatment of gastroesophageal reflux disease in the elderly 755

As people age, GERD becomes more common, more likely to cause complications, and more challenging to diagnose and treat.

F.C. RAMIREZ

**PATIENT
INFORMATION**

Gastroesophageal reflux disease 766

REVIEW

Incorporating soy protein into a low-fat, low-cholesterol diet 767

The USDA recommends eating at least 25 g/day of soy protein as part of a low-fat diet to reduce LDL levels.

A.V. DUNN

**PATIENT
INFORMATION**
