

CLEVELAND CLINIC JOURNAL OF MEDICINE

FROM THE EDITOR.....

Rare but serious adverse effects in commonly used drugs 179

Some adverse effects come to light only after millions of people have taken a drug.

J.D. CLOUGH

1-MINUTE CONSULTS.....

Brief answers to specific clinical questions

What are 'tissue' ACE inhibitors, and should they be used instead of other ACE inhibitors? 185

Improvement in surrogate end points may not necessarily translate into improvement in "hard" clinical end points.

G.S. FRANCIS

Can angiotensin II receptor blockers be used in patients who have developed a cough or angioedema as a result of taking an ACE inhibitor? 189

The new drugs have a lower side effect profile, but caution is indicated when giving them to patients with a history of ACE inhibitor-induced angioedema.

D.G. VIDT

THE CLINICAL PICTURE.....

A 46-year-old man with dyspnea 191

Questions and answers on the visible signs of diseases.

C.M. RIMMERMAN

REVIEW.....

Making the most of cholesterol-lowering margarines 194

These new "functional foods" reduce serum cholesterol and LDL levels modestly when used instead of regular margarine, butter, or oil. Are they worth it?

J.K. AVERY

IM BOARD REVIEW.....

A 35-year-old man with recurrent aseptic meningitis 199

What is the cause of this patient's symptoms?
A self-test on a clinical case.

D.Z. CHANG, N.G. CORREIA, P. KHURANA, R.J. TUTHILL, AND A.J. TAEGE

CURRENT DRUG THERAPY

Phenylpropanolamine and stroke: 208
The study, the FDA ruling, the implications

The FDA, after a recent study, asked manufacturers to pull dozens of products from the shelves.

T.L. MERSFELDER

REVIEW

The challenge of irritable bowel syndrome: 224
Creating an alliance between patient and physician

The key to treating irritable bowel syndrome is to establish a therapeutic physician-patient relationship.

B. SHEN AND E. SOFFER

**PATIENT
INFORMATION**
Controlling irritable 237
bowel syndrome

MEDICAL GRAND ROUNDS

Evolving cardiovascular applications 238
for magnetic resonance imaging

Improvements in MRI have increased its value in existing cardiovascular applications and opened the door to new uses.

R.G. WEISS

CANCER DIAGNOSIS AND MANAGEMENT

Managing menopause after breast cancer: 243
Balancing risks and benefits

One of the most complex issues facing breast cancer survivors and their physicians is how to manage menopause.

H.C.F. MOORE

HEART FAILURE UPDATE

Management of asymptomatic 249
left ventricular dysfunction

Heart failure can have an insidious onset, and the best time to intervene with ACE inhibitors and beta-blockers is early.

G.J. HAAS

REVIEW

Shedding: How to manage 256
a common cause of hair loss

Shedding is not a disease, but it sometimes is a sign of a disease.

W.F. BERGFELD AND F. MULINARI-BRENNER

DEPARTMENTS

CME Credit Test 263

- The *Cleveland Clinic Journal of Medicine* is peer-reviewed and indexed in *Index Medicus*.

UPCOMING FEATURES

- Is C-reactive protein a marker of cardiovascular disease?
- Assessing fracture risk: What test is best?
- What performance-enhancing drugs are athletes taking?
- How to prevent falls in the elderly
- A new drug for atrial fibrillation
- Should coronary patients get preoperative beta-blockers?
- Should ACE inhibitors be stopped if kidney function drops?
- Does aspirin attenuate ACE inhibition?
