

TABLE OF CONTENTS

FROM THE EDITOR

BNP looks like a winner

179

Natriuretic peptides are out of the research laboratory and into the clinic and hospital ward.

J.D. CLOUGH

MEDICAL GRAND ROUNDS

How to assess and counsel the older driver

184

Suggesting that a patient stop driving is never easy, yet taking no action may have deadly consequences.

B.J. MESSINGER-RAPPORT

IM BOARD REVIEW

A 52-year-old man with excessive daytime sleepiness

193

What is the cause of this patient's symptoms? A self-test.

B.D. SARODIA, R. MEHRA, AND J.A. GOLISH

CANCER DIAGNOSIS AND MANAGEMENT

Oncologic emergencies for the internist

209

The complications the general internist is most likely to see and can least afford to miss.

W.S. KRIMSKY, R.J. BEHRENS, AND G.J. KERKVLIT

REVIEW

Hereditary hemochromatosis: A common, often unrecognized genetic disease

224

Although hereditary hemochromatosis is one of the most common genetic diseases affecting people of northern European descent, it is underdiagnosed.

G.M. MCCARTHY, C.J. MCCARTHY, D. KENNY, J. CROWE, AND S. EUSTACE

**PATIENT
INFORMATION**

What is hemochromatosis?

238

EDITORIAL

Hereditary hemochromatosis: Molecular genetic testing issues for the clinician

239

A DNA test exists, but who should be tested?

B.A. CLARK

REVIEW

The B-type natriuretic peptide assay: A rapid test for heart failure 243

This 15-minute test is highly sensitive and fairly specific and is useful in evaluating suspected heart failure in outpatients and in emergency care.

W.F. PEACOCK

REVIEW

How to use nesiritide in treating decompensated heart failure 252

Nesiritide, a recombinant formulation of BNP, is the first new parenteral drug in more than a decade to be approved for treating heart failure.

R.M. MILLS AND R.E. HOBBS

1-MINUTE CONSULT

Brief answers to specific clinical questions

What is the best diagnostic approach when pheochromocytoma is suspected? 257

First prove there is catecholamine overproduction, then obtain an MRI to locate the tumor.

E.L. BRAVO

What is the best way to determine if thrombocytopenia in a patient on multiple medications is drug-induced? 259

The only way is to stop the suspected drug and see if the thrombocytopenia resolves. But how to avoid stopping needed drugs that are not a problem?

N.S. MAJHAIL AND A.E. LICHTIN

DEPARTMENTS

Call for Peer Reviewers 182

CME Credit Test 263

UPCOMING FEATURES

- Better care of patients dying of heart failure
- Do statin drugs affect osteoporosis?
- The case for treating mild thyroid failure
- When can mammography and Pap smears be stopped?
- ARBs and ACEs in heart failure
- Holding back resistant gram-positive infections
- Preventing and treating drug-induced acute renal failure
- Update on benign breast diseases
- New treatments for inflammatory bowel disease
