HYPONATREMIA AND THE ROLE OF VASOPRESSIN

Supplement 3, Volume 73 September 2006

Supplement Editor

PHILLIP HALL, MD Cleveland Clinic

Foreword: Hyponatremia: More to the story than disordered sodium homeostasis
Hyponatremia: Why it matters, how it presents, how we can manage it
Exercise-induced hyponatremia: Causes, risks, prevention, and management
The role of vasopressin in congestive heart failure
AVP receptor antagonists as aquaretics: Review and assessment of clinical data

This supplement was supported by an educational grant from Astellas Pharma US, Inc.

Rxperience, a medical communications company, assisted in the development of this supplement by selecting article topics, recruiting authors, assisting in table and figure preparation, and copyediting and styling manuscripts prior to submission. All manuscripts were written solely by the bylined physician authors, and all were peer reviewed by the Cleveland Clinic Journal of Medicine's guest editor for this supplement.

Topics and editors for supplements to the *Cleveland Clinic Journal of Medicine* are determined by the *Journal's* editor-in-chief and staff. Supplement editors are chosen for their expertise in the topics discussed and are responsible for the scientific quality of supplements, including the review process. The *Journal* ensures that supplement editors and authors fully disclose any relationships with industry, including the supplement underwriter. For full guidelines on grant-supported supplements to the *Journal*, go to www.ccjm.org/pdffiles/guidelines.pdf.

Author financial conflict-of-interest disclosures appear within the authors' respective articles.
