JULY 2011

TABLE OF CONTENTS

FROM THE EDITOR

When good drugs turn weirdly bad 426

Even the most specific of drugs, such as interferon, can have untoward biologic effects.

B.F. MANDELL

MEDICAL GRAND ROUNDS

Update in hospital medicine: Studies likely to affect inpatient practice in 2011 430

A hypothetical case scenario helps focus on anticoagulants, patient safety, quality improvement, critical care, transitions of care, and perioperative medicine.

A.K. JAFFER

REVIEW

Hypothermia after cardiac arrest: Beneficial, but slow to be adopted 441

Survivors of cardiac arrest due to ventricular tachycardia or ventricular fibrillation have better neurologic outcomes if they are cooled to a core body temperature of 32°C to 34°C for 24 hours as soon as possible after reaching the hospital.

S.S. OOMMEN AND V. MENON

CANCER DIAGNOSIS AND MANAGEMENT

Managing cancer pain: Frequently asked questions 449

Cancer pain: its pathogenesis, how to assess it, and how to treat it—in particular, how to use opioids optimally.

R.R. INDURU AND R.L. LAGMAN

CURRENT DRUG THERAPY

Vancomycin: A 50-something-year-old antibiotic we still don't understand 465

To use vancomycin appropriately, we need to recognize its changing minimum inhibitory concentrations, select proper doses and dosing intervals, and know how to monitor its use.

A. SCHILLING, E. NEUNER, AND S.J. REHM

THE CLINICAL PICTURE.....

Rash from hepatitis C treatment 472

Although the combination of interferon and ribavirin is the standard of treatment for chronic hepatitis C, some patients experience adverse reactions.

D.M. TANG AND L. WARD

EDITORIAL.....

**Bronchial thermoplasty:
A promising therapy, still in its infancy 475**

Inflammation is not the only pathophysiologic process underlying asthma. Bronchial thermoplasty takes a novel approach and offers reason for optimism.

A.K. MAHAJAN AND D.K. HOGARTH

REVIEW.....

**Bronchial thermoplasty:
A new treatment for severe
refractory asthma 477**

Asthma has a new treatment, but it isn't for everybody. Here, we review its indications, evidence of efficacy, and protocols.

T.R. GILDEA, S.B. KHATRI, AND M. CASTRO

DEPARTMENTS.....

CME Calendar 428

Directions for taking CME tests online 487

To receive CME credit, read any or all of the CME-certified articles in this issue (those that carry the CME logo), then go to www.ccjm.org to take the test for the article or articles you select. It should take up to 1 hour to complete the activity for each article.

Release date: July 1, 2011

Expiration date: June 30, 2012

UPCOMING FEATURES

- Does loss of sleep cause diabetes?
- Infections from cardiovascular implantable electronic devices
- Small renal masses: Toward more rational treatment
- For how long should bisphosphonates be taken?
- Bio-identical hormones: Clarifying the misconceptions
- Hepatic encephalopathy: Suspect it early in cirrhosis
- Intensive care update: Recent studies that have challenged our practice
- Better fecal occult blood tests are here
