

TABLE OF CONTENTS

FROM THE EDITOR

Appreciating the appetite for reflective practice 208

Twenty-five years later, I still think about eating disorders when I evaluate young women who have severe fibromyalgia.

B.F. MANDELL

MEDICAL GRAND ROUNDS

Acute and critical limb ischemia: When time is limb 209

Just as in acute myocardial infarction, where "time is muscle," in many cases of vascular disease in the leg, "time is limb."

M.H. SHISHEBOR

THE CLINICAL PICTURE

An intravenous drug user with persistent dyspnea and lung infiltrates 223

He was treated empirically with antibiotics, which did not help. Now he is back in the emergency department.

F. MBUVAH, V.A. VENUR, AND G. KISTANGARI

INTERPRETING KEY TRIALS

The METEOR trial: No rush to repair a torn meniscus 226

Many patients who have osteoarthritis of the knee and a torn meniscus can defer surgery and undergo physical therapy instead.

Y.G. HWANG AND C.K. KWON

MEDICAL GRAND ROUNDS..... CME CREDIT

Managing acute coronary syndromes: 233

Decades of progress

In managing acute coronary syndromes, physicians can draw on a large body of evidence from clinical trials.

A.M. LINCOFF

REVIEW CME CREDIT

Don't forget non-Alzheimer dementias 243

An accurate diagnosis is important, as the causes of dementia can differ in their course and treatment.

R.M. FACTORA AND B. TOUSI

REVIEW CME CREDIT

Recognizing, managing medical consequences 255

of eating disorders in primary care

Intentional malnutrition and purging can lead to a wide range of medical problems. And refeeding has pitfalls.

L.P. DICKSTEIN, K.N. FRANCO, E.S. ROME, AND M. AURON
