

TABLE OF CONTENTS

FROM THE EDITOR

The algorithm less traveled 346

At Bellevue, the RPR was a routine test; at the University of Pennsylvania not so much—it all depends on context.

B.F. MANDELL

THE CLINICAL PICTURE.....

An unusual complication of peritoneal dialysis 352

A 45-year-old man, on peritoneal dialysis for 15 years, presented with abdominal pain, nausea, vomiting, and fever.

M. HANOUNEH, P. DAMERA, M. FETRAT, AND D. GEETHA

THE CLINICAL PICTURE.....

Eyes of the mimicker 356

A 42-year-old man presented with intermittent fevers, rigors, headache, and myalgia, and now, one-sided vision loss.

T.A. SUSSMAN, N.K. SHRESTHA, AND M. MIKLOWSKI

1-MINUTE CONSULT

How soon should patients with infective endocarditis be referred for valve surgery? 362

Refer sooner rather than later if the patient has heart failure, uncontrolled infection, or embolic risk.

M. SOUD, H. MOUSSA PACHA, AND M. CHADI ALRAIES

EDITORIAL

Infective endocarditis: Refer for expert team care as soon as possible 365

Infectious endocarditis needs multidisciplinary care. If surgery is indicated, it is best done sooner.

G.B. PETERSSON, B. GRIFFIN, S.M. GORDON, AND E.H. BLACKSTONE

MEDICAL GRAND ROUNDS.....

What you can do for your fibromyalgia patient 367

Fibromyalgia is a defined syndrome of neuronal dysregulation and can be diagnosed and managed in a primary care setting.

C.E. GOTA

REVIEW

Idiopathic pulmonary fibrosis: What primary care physicians need to know 377

This devastating and fatal lung disease generally affects older adults, especially men, and can be mistaken for COPD.

L.B. TOLLE, B.D. SOUTHERN, D.A. CULVER, AND J.C. HOROWITZ

EDITORIAL

It takes a village to care for the patient with idiopathic pulmonary fibrosis 387

The primary care physician can play key roles in diagnosis, referral, and long-term management.

A. FISCHER

REVIEW

Genitourinary syndrome of menopause: Common problem, effective treatments 390

Half of all postmenopausal women experience these symptoms. Most do not seek relief.

N.A. PHILLIPS AND G.A. BACHMANN

REVIEW

Hypertrophic cardiomyopathy: A complex disease 399

Most people who carry its mutations are never affected, but, rarely, some patients die suddenly at a young age.

L. YOUNG, N.G. SMEDIRA, A. TOWER-RADER, H. LEVER, AND M.Y. DESAI

DEPARTMENTS

CME Calendar 389

Letters to the Editor 360

A reader comments on acute cardiorenal syndrome (March 2018).

CME Instructions 412

Upcoming Features

- Thoracic aortic aneurysm: How to counsel, when to refer
- Should we supplement calcium and vitamin D?
- Renal disease in surgical patients: Minimizing the impact
- Life after critical care: The journey forward
- Traveling while diabetic: A survival guide
- Hydroxychloroquine: Old drug, new relevance
- Women with diabetes: Special concerns
- Cardiac rehabilitation: A class I recommendation
